

INGREDIENTS, EQUIPMENT AND SUPPLIES

Cargill Cocoa & Chocolate

Peter's Burgundy Semi-sweet Chocolate is now available in finely ground form for use as a drinking chocolate, eliminating the need to grind blocks or wafers. This new product is pure chocolate, not a cocoa-powder-and-sugar blend. By adding either warm milk or water, chocolatiers can make drinking chocolate with fruity, winery undertones, or create their own signature-flavored drink by adding spices. Packaged in 5 kg boxes, four boxes per case. Tel: +1 (877) 835 4243 www.cargill.com

Bedemco Inc.

Bedemco has launched three pistachio specialty ingredients that can be used for flavor enhancement in a wide variety of confectionery, dessert and ice cream applications: Pistachio Paste, Pistachio Praline Paste and Pistachio Praline Powder. All offer improvements in quality and manufacturing efficiencies. Pistachio Praline Powder in particular has advantages for new product development.

Rovema Packing Machines, LP

Rovema's VPL-400 continuous motion machine is now available for the production of flat-bottom bags and Stabulo Seal bags. The stainless steel VPL-400 operates via modern linear servo-drive technology and can achieve speeds of up to 150 bags per minute. Changeovers are simple and quick. The machine can accommodate bags sizes from 80 to 400 mm in width and up to 600 mm in length.

Virginia Dare

Virginia Dare has brought to market a high-quality Fair Trade Vanilla. It is of Indian origin, with a high vanillin content and a very clean flavor profile. The vanilla is sanctioned by Transfair USA, which maintains fair trade standards in the United States. The standards work to ensure sustainable production and fair financial return for small-scale farmers and producers.

J.L. Clark

The new plastic SnapTop closure packaging from J.L. Clark offers consumers a container that will open and close easily and repeatedly with a secure fit every time. In addition, the square container holds more product in a smaller space than a round container, for savings on storage and shipping costs.
